

This is the pond at Granville island there were alot of ducks there and you can pet them.They won't get scared and they are friendly. There is so much natural beauty. There are alot of parks there too and you can play on them its alot of fun.

This park is really big it has water park equipment and even a big slide also it has a normal playground there alot of playgrounds like this, they are really fun you should try them you won't regret it.

There is also a basketball indoor half court gym can you believe it? I am telling you this place is so much fun I highly recommend going to this place it is wonderful.

I was one of the lucky ones because I got to go here it was the best day of my life and it is free.

There are multiple hills there that you can go to and have fun maybe even roll down. What I did was I went up the hill backwards to exercise my knees and then ran down full speed it was so fun.

There is so much greenery there I wish I could've just sit there and relax but I couldn't because had limited amount of time. If you go there will be a lot of time and it will be a way better trip than mine.

Again another hill you can climb it, run up it, and go backwards it's too much fun I wish I can go again. I jumped of the yellow thing you see there and it was really exciting and then I ran down the hill. I highly recommend you go to this place you won't regret
